Administrative Overview

Section 1

Administrative Overview

I. Authority

The Hawaii State Legislature established the Hawaii Public Housing Authority (hereinafter “HPHA”) under Chapter 356D, Hawaii Revised Statutes (HRS). The HPHA consolidates all low income housing and homeless functions and is administratively attached to the Department of Human Services. The HPHA is a public body and a body corporate and politic of the State of Hawaii. The HPHA’s role is to address the housing needs of families in Hawaii. The HPHA seeks to competitively procure property management, maintenance and resident services for the federally funded low-income public housing complexes on the Kona Coast under Asset Management Project 43 (hereinafter “AMP 43”).

A determination has been made that the HPHA is unable to secure services through a low bid process. Factors included in the determination were 1) Price is not the primary consideration in determining an award; 2) The resulting Contract needs to be other than a fixed-price type; 3) The specifications for the services cannot be sufficiently described through a low bid process; 4) Oral or written discussions need to be conducted with interested offerors concerning their proposals; 5) Interested offerors may need to revise their proposals, including price; and 6) The award needs to be based on a comparative evaluation in order to determine the most advantageous offering to the State. To that end, a low bid process is not practicable to the State to secure property management, maintenance and resident services for AMP 43.

This Request For Proposals (hereinafter “RFP”) is issued under the provisions of Chapter 103D, HRS, the related administrative rules, and the United States Department of Housing and Urban Development’s (hereinafter “HUD”) regulations. Interested offerors are charged with presumptive knowledge of all requirements of the cited authorities. Submission of a valid executed proposal by any interested offeror shall constitute admission of such knowledge on the part of such interested offeror.

II. RFP Organization

This RFP is organized into five (5) sections:

- Section 1 Administrative Overview – Provides interested offerors with an overview of the procurement and contracting process.
- Section 2 Scope of Work and Specifications – Provides interested offerors with a general description of the tasks to be performed, delineates interested offeror’s responsibilities, and defines deliverables as applicable.
- Section 3 Proposal Form and Instructions – Describes the required format and content for the proposal.
- Section 4 Proposal Evaluation & Award– Describes how proposals will be evaluated.
- Section 5 Attachments

Modifications and/or withdrawals shall be clearly marked and must be received by the HPHA no later than 4:00 p.m. HST on February 24, 2011.

- D. **Wages and Labor Law Compliance.** Prior to entering into a Contract in excess of \$25,000, an interested offeror shall certify that it complies with section 103-55, HRS, Wages, hours, and working conditions of employees of contractors performing services. Section 103-55, HRS provides that the services to be performed shall be performed by employees paid at wages not less than wages paid to public officers and employees for similar work. Interested offerors are further advised that in the event of an increase in wages for public employees performing similar work during the period of the Contract, the Successful Offeror shall be obligated to provide such increased wages.

Interested offerors shall complete and submit the attached Wage Certification certifying that the services required will be performed pursuant to section 103-55, HRS. See Attachment 22.

The Contractor shall be further obligated to notify his employees performing work under this Contract regarding the provisions of section 103-55, HRS, and the current wage rates for public employees performing similar work. The Contractor may meet this obligation by posting a written notice to this effect in the Contractor's place of business in an area accessible to all employees.

Interested offerors are strongly encouraged to account for salary increases as posted by the State Department of Human Resources Development (DHRD). The **HPHA will consider requests for increases as a result of wage increases to public officers and employees during the contract period or any option period that are not published.** At the release of this solicitation, the effective wages through March 1, 2009 for State employees performing similar work have been published by the DHRD.

If wages increase after the execution of the Contract, the Successful Offeror may request an increase in Contract price in order to correspondingly increase the wages of the offeror's employees performing the work, including any increase in costs for benefits required by law that are automatically increased as a result of increased wages, such as federal old age benefits, workers' compensation, temporary disability insurance, unemployment insurance, and prepaid health insurance.

The Contractor shall not be paid for any reimbursement of retroactive pay negotiated by the State. The Contractor's request for the increase must meet the following criteria:

1. At the time of the offer, if the Successful Offeror's hourly wage rate is greater than the prevailing State wage, the Successful Offeror's requests for increase will not be considered.
2. At the time of the request, the Successful Offeror must or must have provided documentation to show that it is in compliance with Section 103-55, HRS, (i.e. its employees are being paid no less than the known wage of the State position listed herein). Documentation shall include the employees payroll records and a statement that the employees are being utilized for this Contract.
3. Request for an increase must be made in writing to the HPHA on a timely basis:
 - i. Request for increase for the initial Contract period must be made as soon as practicable after the State wage agreements are made public. Approved requests will be retroactive to the date of increase for the State employees with adequate documentation that the Successful Offeror provided its employees a wage increase.
 - ii. Request for increase for an option period of the Contract must be made prior to the start of the option period. To obtain the current wage information download the information from the Department of Human Resource Development's website at the following address:

<http://www.hawaii.gov/hrd/main/HRDInfoCentral/DocCentral/SalarySchedules>

It is the sole responsibility of the Contractor to comply with section 103-55, HRS.

- E. **Confidential Information.** If an interested offeror believes that any portion of a proposal contains information that should be withheld as confidential, the interested offeror shall request in writing nondisclosure of designated proprietary data to be confidential and provide justification to support confidentiality. Such data shall accompany the proposal, be clearly marked, and shall be readily separable from the proposal documents to facilitate eventual public inspection of the non-confidential sections of the proposal documents. Note that **price and the provision of the minimum required services are not considered confidential and will not be withheld.**

Interested offerors that chose to identify portions of their proposal as confidential, shall be responsible to ensure that the minimum services are not included. The HPHA will not make any determination of confidentiality for the interested offeror.

If a proposal is marked confidential in its entirety, the HPHA will not make a determination of confidentiality and will refer the request for information to the State's Office of Information Practices.

- F. **Exceptions.** Interested offerors shall list any exceptions taken to the terms, conditions, specifications, or other requirements listed herein. Interested offerors must reference the RFP section where the exception is taken, a description of the exception taken, and any proposed alternative. The HPHA shall retain the right to grant exceptions to discretionary policies. Requests for exceptions to State, Federal, or local laws shall not be approved.
- G. Information shall be made confidential as permitted by law.

All documents so received shall be held in a secure place by the HPHA and shall not be examined for evaluation purposes until the submittal deadline. Procurement files shall be open to public inspection after a contract has been awarded and executed by all parties. Sealed proposals shall not be opened at a public proposal opening.

Interested offerors shall ensure that the HPHA is provided with the written authorization(s) necessary to verify information provided in the interested offeror's proposal.

XV. Mistakes in Proposals

While interested offerors are bound by their proposals, circumstances may arise where a correction or withdrawal of proposals is proper. An obvious mistake in a proposal may be corrected or withdrawn, or waived by the interested offeror to the extent that it is not contrary to the best interest of the HPHA or to the fair treatment of other interested offerors. Mistakes in proposals shall be handled as provided for in section 3-122, Hawaii Administrative Rules (HAR) and HUD requirements at Handbook 7460.8.

XVI. Rejection of Proposals

The HPHA reserves the right to consider as acceptable only those proposals submitted in accordance with the requirements set forth in this RFP and which demonstrate an

understanding of the service specifications. Any proposal offering may be rejected without further notice if it is:

1. Determined to be unreasonable in price, including not only the total price of the proposal, but the prices for individual items as well; or
2. Determined to offer a set of terms or conditions that are contradictory to the minimum requirements included in this RFP.

XVII. Notice of Award

Any Contract arising out of this solicitation is subject to the approval of the Department of the Attorney General as to form, and to all further approvals, including the approval of HUD as may be required by statute, regulation, rule, order or other directive.

The Successful Offeror shall receive a Notice of Award, which will indicate that the Successful Offeror has been selected to provide property management and maintenance services under this RFP.

No work is to be undertaken by the Successful Offeror prior to the Contract commencement date. The HPHA is not liable for any work, contract, costs, expenses, loss of profits, or any damages whatsoever incurred by the Successful Offeror prior to the Contract starting date.

(END OF SECTION)

Section 2

Scope of Work & Specifications

Section 2

Scope of Services

I. Introduction

A. Purpose or need

The public housing program was established in 1937 to provide decent and safe rental housing for low income families. In 1998, the Congress established a new Operating Fund Program. As part of that legislation, the Congress directed HUD to develop a formula for determining operating subsidies through negotiated rule-making with Public Housing Authorities, industry groups, and other affected parties. The Congress further directed HUD to contract with Harvard University's Graduate School of Design to "conduct a study of the costs to operate well-run public-housing." The Harvard "Cost Study" was completed in 2003 and recommended that public housing adopt a business model similar to multifamily housing, with project-based budgeting, project-based accounting, and project-based management. This business model became known as "asset management."

There are five core elements or building blocks of asset management, including:

1. Project-based Funding;
2. Project-based Budgeting;
3. Project-based Accounting;
4. Project-based Management; and
5. Project-based Oversight and Performance Assessment.

The purpose of this RFP is to procure property management, maintenance and resident services to manage, operate and maintain the federal low-income public housing complexes within the HPHA's Asset Management Project 43 (hereinafter "AMP 43").

The HPHA intends to focus on performance results through measurements including but not limited to, occupancy rate, amount and percentage of rent collected, and tenant satisfaction. The HPHA expects the Successful Offeror to fully execute its business practices consistent with quality standards and will judge performance on the basis of outcome.

The Successful Offeror shall manage AMP 43 in accordance with asset management. In order to be financially viable, the Successful Offeror shall manage within the projected revenue and expenses for AMP 43.

B. Area of Service

The Successful Offeror shall be required to provide property management, maintenance and resident services on the island of Oahu under AMP 43 as follows:

- Ka Hale Kahaluu (50 units) 78-6725 Makolea St, Kailua-Kona HI 96740
- Hale Hookipa (32 units) 81-1038 Nani Kupuna Pl, Kealahou HI 96750
- Kaimalino (40 units) 74-5060 Kealahou St, Kailua-Kona HI 96740
- Kealahou (48 units) 74-991 Manawalea St, Kailua-Kona, HI 96740
- Nani Olu (32 units) 81-1011 Nani Kupuna Pl, Kealahou HI 96750

Attached is a description and site map of the complexes. See Attachments 1 and 2.

C. Funding source and period of availability

TOTAL POSSIBLE POINTS**100 Points**

Proposals shall be classified initially as acceptable, potentially acceptable, or unacceptable. If numerous acceptable and potentially acceptable proposals are submitted, the evaluation committee may rank the proposals and limit the priority list to three (3) responsive and responsible offerors who submitted the highest-ranked proposals. If there are less than three (3) acceptable or potentially acceptable proposals, the HPHA shall not be required to hold discussions with these offerors who submitted unacceptable proposals.

Discussion may be conducted with priority listed successful offerors who submit proposals determined to be acceptable or potentially acceptable of being selected for award, but proposals may be accepted without discussions. The objective of these discussions is to clarify issues regarding the Successful Offeror's proposal before the best and final offer, if necessary.

II. Mandatory Requirements

The HPHA will conduct an initial review to ensure that all proposals meet the minimum threshold requirements. Proposals will be reviewed to ensure submittal of all required attachments, certifications, forms, and narrative sections.

Statements which indicate that mandatory certifications will be submitted upon Contract award shall be unacceptable.

III. Financial/Price Proposal Review

The financial/price proposal review will be evaluated for financial and contractual acceptability and for reasonableness of the price proposal. The proposal with the lowest cost factor shall receive the highest available rating allocated to cost. Each proposal that has a higher cost factor than the lowest must have a lower rating for cost.

The points allocated higher to higher priced proposals must be equal to the lowest proposal price multiplied by the maximum points available for price, divided by the higher proposal price as follows:

$$\frac{\text{Price of the lowest price proposal} \times 10}{\text{Price of the proposal being rated}}$$

In determining whether a proposal is responsive, the HPHA will evaluate the costs and its supporting documentation against realistic operational expenses.

The HPHA will also review the most recent audited statements of the Successful Offeror.

IV. Technical Review

The Successful Offeror's proposal shall be in the form prescribed by this solicitation and shall contain a response to each of the areas identified that affects the evaluation factors for award.

A. The technical proposal will be evaluated to determine, if the Successful Offeror possesses the capability to successfully perform the requirements of the solicitation. The technical criteria are shown below:

1. Experience and Capability;
2. Personnel and Staffing; and

3. Management Work Plan.

- B. Proposals will be evaluated for technical and contractual acceptability. Proposals shall be prepared in accordance with the instructions given in the RFP and shall meet all requirements set forth in this RFP.
- C. All proposals will be reviewed for reasonableness. Those offers that are not within the competitive range will be notified that their proposals are unacceptable, negotiations/discussions with them are not contemplated, and any revisions of their proposals will not be considered.
- D. Award will be made to the responsible offeror whose proposal, conforming to the solicitation, will be most advantageous to the HPHA, considering price and other factors indicated below.

Pursuant to Chapter 3-122-59 HAR, if for a given request for proposals, there is only one responsible offeror submitting an acceptable proposal, an award may be made to the single offeror, rejected and new requests for proposals solicited or cancelled.

- E. The HPHA reserves the right to award a Contract on the basis of the initial offers received without discussion. Offers are solicited on an "all or none" basis. Failure to submit offers for all items and quantities listed shall be cause for rejection. Proposals should be submitted initially on the most favorable terms of a price and technical standpoint, which the interested offeror can submit to the HPHA.
- F. All proposals submitted will be evaluated on the basis of the evaluation criteria listed herein. Proposals shall conform to all terms and conditions contained in the Request for Proposals. Proposals which do not conform to all requirements expressed in this solicitation may be rejected without further evaluation, deliberation or discussion.
- G. Past Performance. The HPHA will evaluate the quality of each interested offeror's past performance. The assessment of an interested offeror's past performance will be used as one means of evaluating the credibility of the interested offeror's approach to work accomplishment in the management plan. A record of marginal or unacceptable past performance may be an indication that the promises made by the interested offeror are less than reliable. Such an indication will be reflected in the HPHA's overall assessment of the interested offeror's proposal. However, a record of acceptable or even excellent past performance will not result in a favorable assessment of an otherwise unacceptable technical proposal.

In investigating an interested offeror's past performance, the HPHA will consider information in the interested offeror's proposal and information obtained from

other sources, including past and present customers and their employees; other Government agencies, including state and local agencies; consumer protection organizations and better business bureaus; former subcontractors; and others. Evaluation of past performance is a subjective assessment based on a consideration of all relevant facts and circumstances. The HPHA will seek to determine whether the interested offeror has consistently demonstrated a commitment to customer satisfaction and timely delivery of quality goods and services at fair and reasonable prices.

The HPHA's conclusions about the overall quality of the interested offeror's past performance will be influential in determining the relative merits of the interested offeror's proposal and in selecting the Successful Offeror whose proposal is considered most advantageous to the HPHA.

Past performance includes the interested offeror's record of conforming to specifications and to standards of good workmanship; the interested offeror's adherence to contract schedules, including the administrative aspects of performance, the interested offeror's control of costs, including costs incurred for changed work; the interested offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and, generally, the interested offeror's business-like concern for the interests of the customer.
